

Anthony Connolly

Graduated from Scoil Uí Mhuirí 2007

My name is Anthony Connolly and I graduated from Scoil Uí Mhuirí in 2007. After completing my Leaving Certificate, I went on to do a 4 year Honours Degree in Building Surveying in Dundalk Institute of Technology, graduating in 2011. This course provided me with an in-depth understanding of the Construction Industry in Ireland and Europe, and opened up many career opportunities. I developed an interest in Sustainability and Climate Change during my time in DkIT and decided to further my studies in this area. I completed my Masters in Sustainable Design in Queens University Belfast in 2012 and gained employment with an IT Construction company in Dublin shortly after. I have been working with this company for over 3 years and have gained so much experience and knowledge.

The Leaving Cert was a great stepping stone towards my career and it can really help you decide which career path to take, and believe me, there are endless options, so choose what you love and don't be afraid to go for it!
