

WHAT WE DO

We provide individual curriculums to meet not only academic needs but also the student's emotional, social, sensory and communication needs. We offer small group teaching which allows us to deliver a curriculum that suits each student's learning style. We support students to integrate into all parts of student life that they wish to.

Our Aim

DEVELOP STUDENT SKILLS
We support our students to focus on their strengths.

BE A CREATIVE THINKER
We support our students to develop critical thinking skills.

FOSTER A LOVE OF LEARNING
We support our students to discover their learning style and strengths.

Our Sensory Room

Our Sensory Garden

Le Chéile Ethos

In 'Le Chéile' we aim to use and develop pupils' strengths and areas of interests to help them engage with their curriculum and access as many parts of school life as they want to. We believe that happy pupils can reach their full potential both academically and holistically.

We promote self-regulation and the development of our students' independent skills.

The development of our students' communication and language skills is also hugely important to aid their understanding of the world around them.

We will always strive to meet our students' social, emotional, sensory and behaviour needs.

We give the pupils choices, so they do not feel anxious in various situations.

We ask the pupils what they want and include them in discussions about themselves.

We always ensure and do not presume understanding and always develop solutions not consequences.
